

Service Project: Family Food Boxes

Ages	Budget (per box)	Time (per box)	Audience
6 and up	\$10 – 15	5 min + shopping or asking for donations	Families quarantined due to COVID-19

Background

Daily Planet Health Services (DPHS) provides care to families who have been hardest hit by the pandemic. Often times they cannot afford to miss work because they are paid hourly or day to day, which puts additional stress on them to work even when sick, increasing the chance of COVID-19 spreading.

When a family in need must quarantine or isolate, we provide these food boxes to ease their burden.

These boxes are a way you can provide some food security as well as small treats to show that the community cares about the health and wellbeing of our clients and their families.
